OUTLINE

- Executive Summary
- Introduction
- Methodology
- Results
  - Visualization – Charts
  - Dashboard
- Discussion
  - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

- Current Technology Trends
- Future Technology
  - Language
  - Database
  - Platform
- Demographics Survey
- Formal Education Impacts

INTRODUCTION

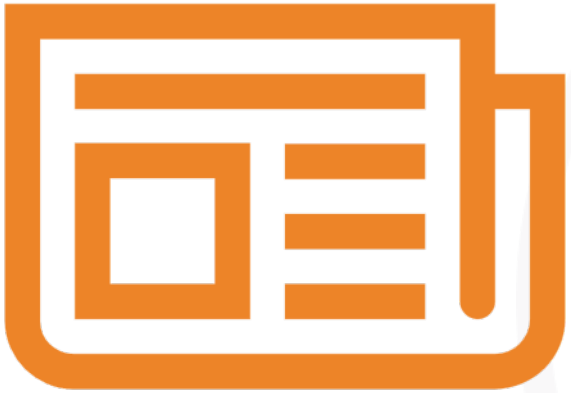

Analyzing the trends in technology and the impacts on the field

- Job Postings
- Popular Languages
- Programming Language Trends
- Database Trends
  - Current Year
  - Next Year

Audience: Head of IT, HR, and Hiring Team

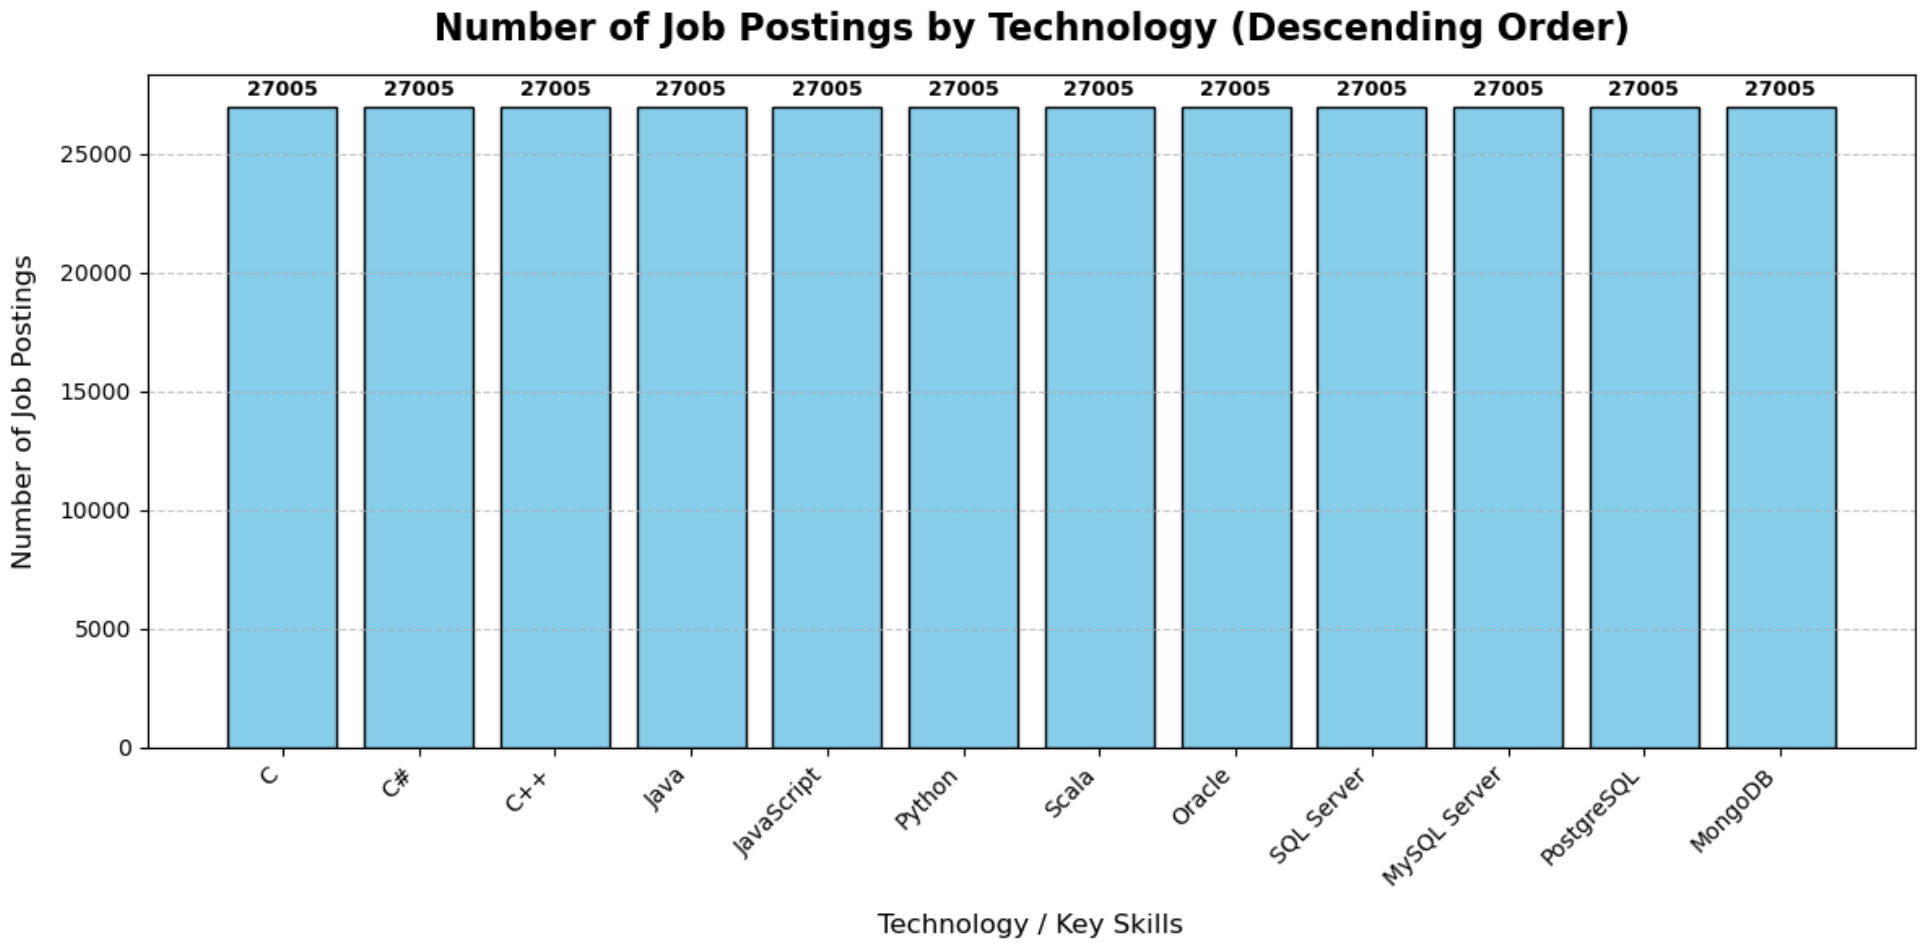

METHODOLOGY

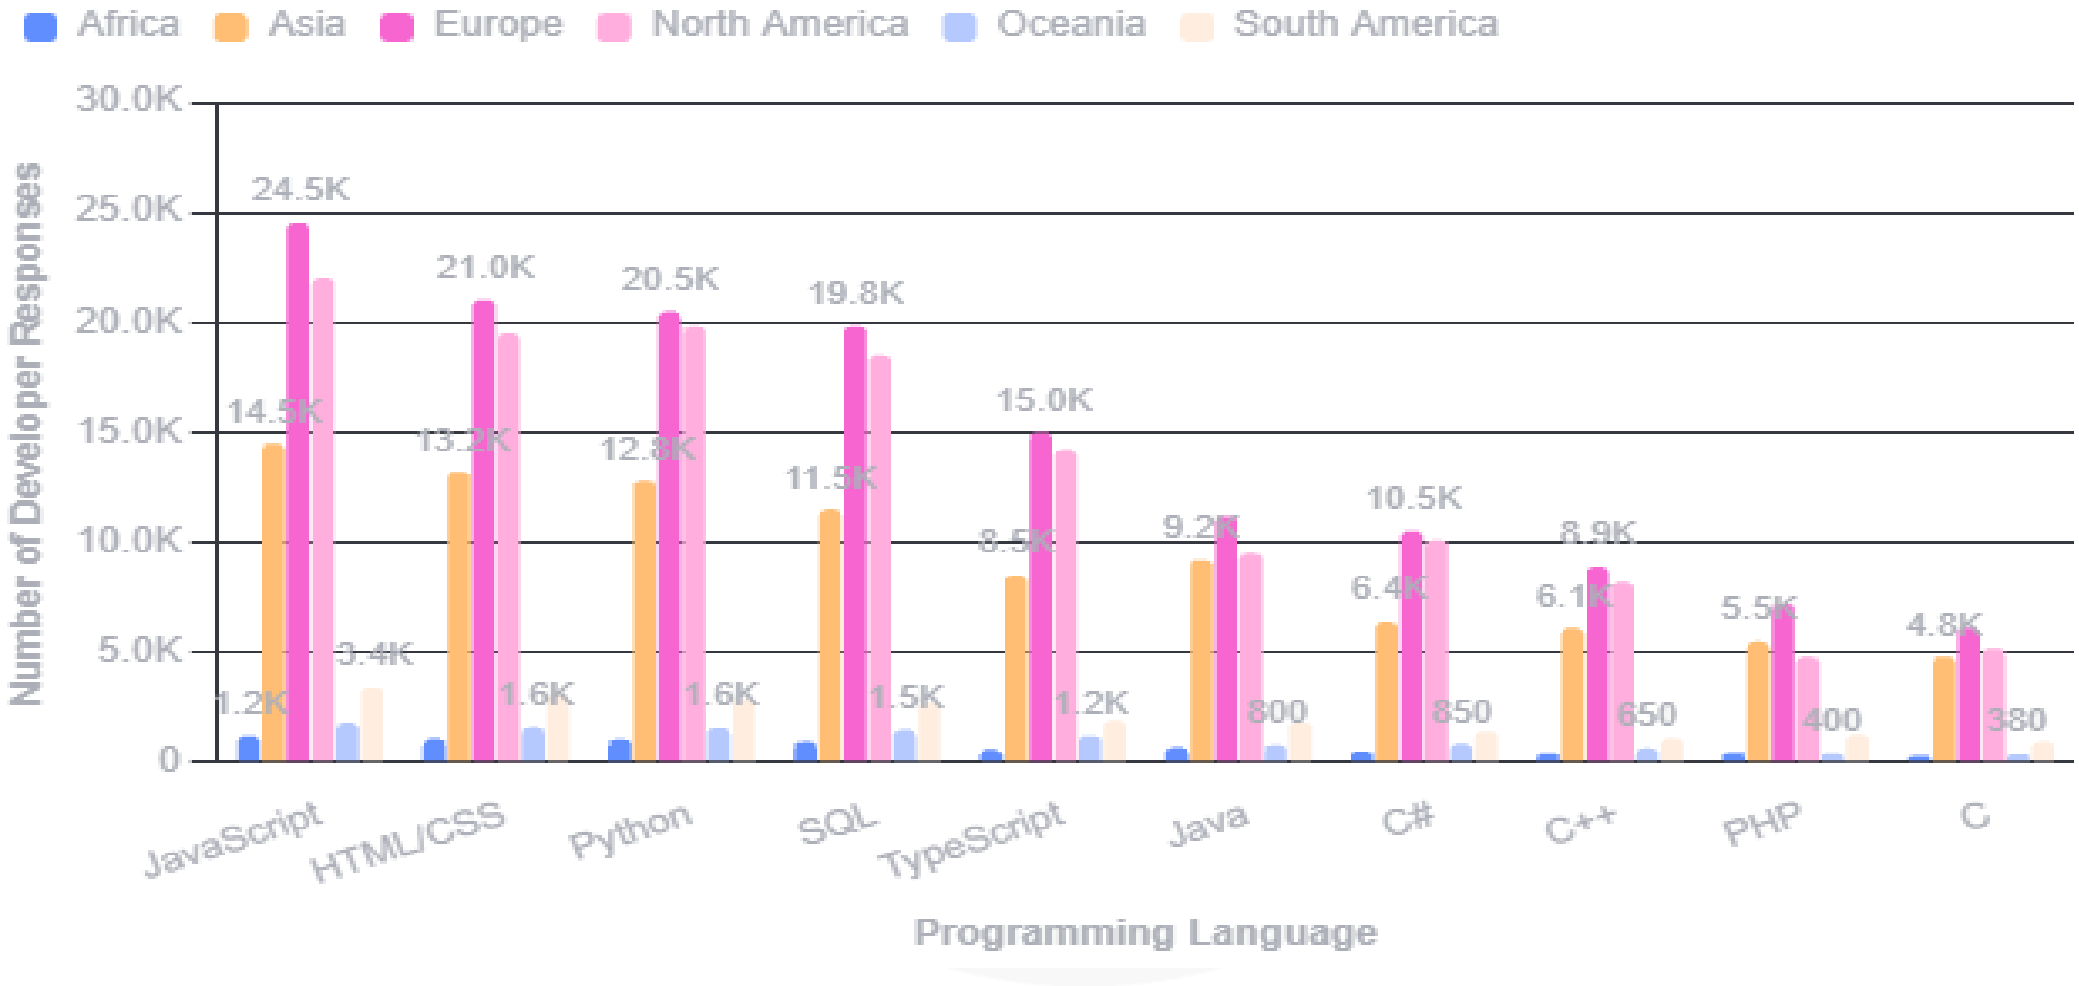

Data sources, Data collection & Data wrangling steps

- Data Collection
  - Web Scraping
  - API
- Data Exploration
- Data Wrangling
- Data Visualization

JOB POSTINGS

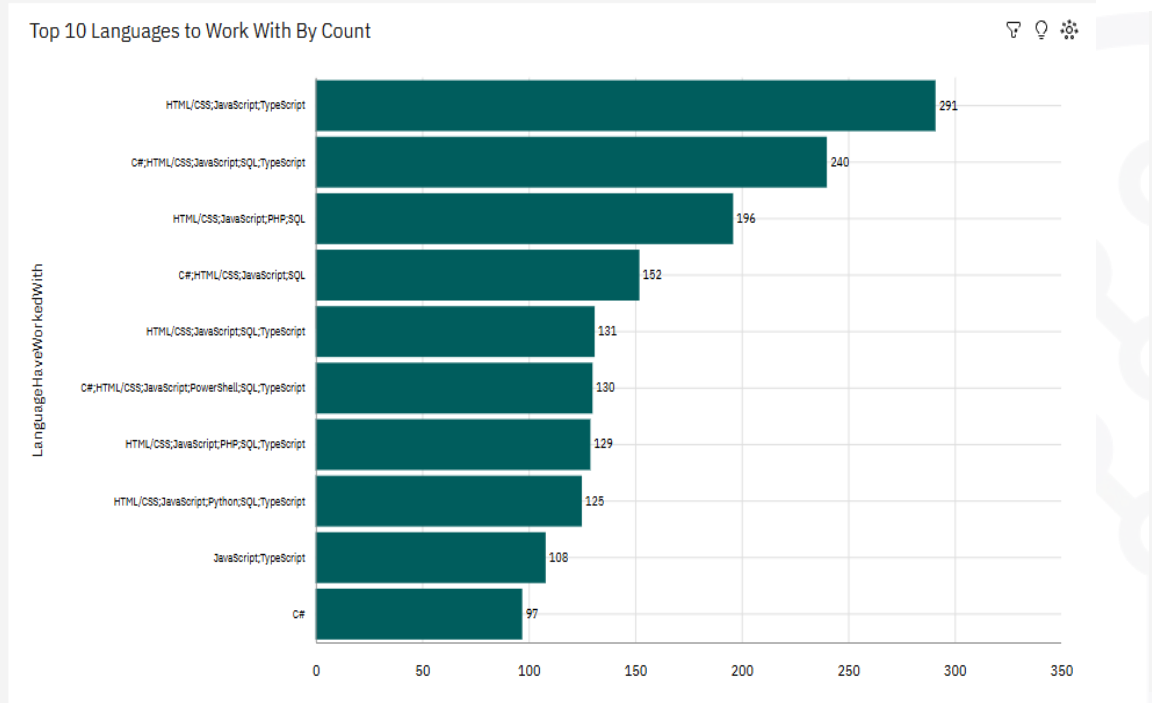

POPULAR LANGUAGES

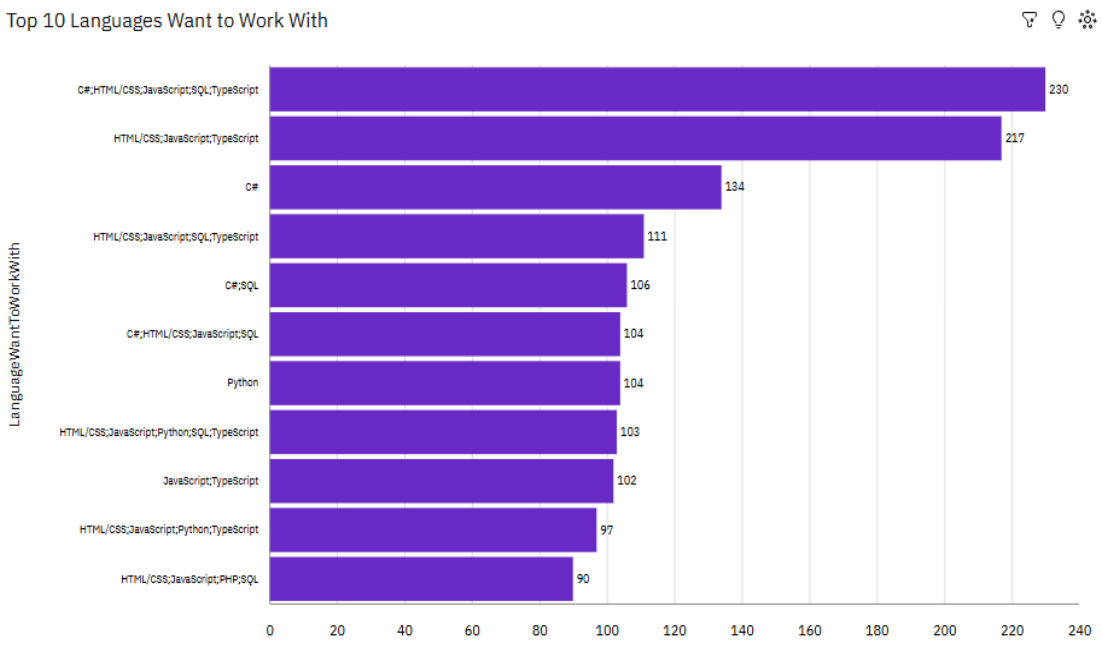

IBM

PROGRAMMING LANGUAGE TRENDS

Current Year

Next Year

PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

Findings

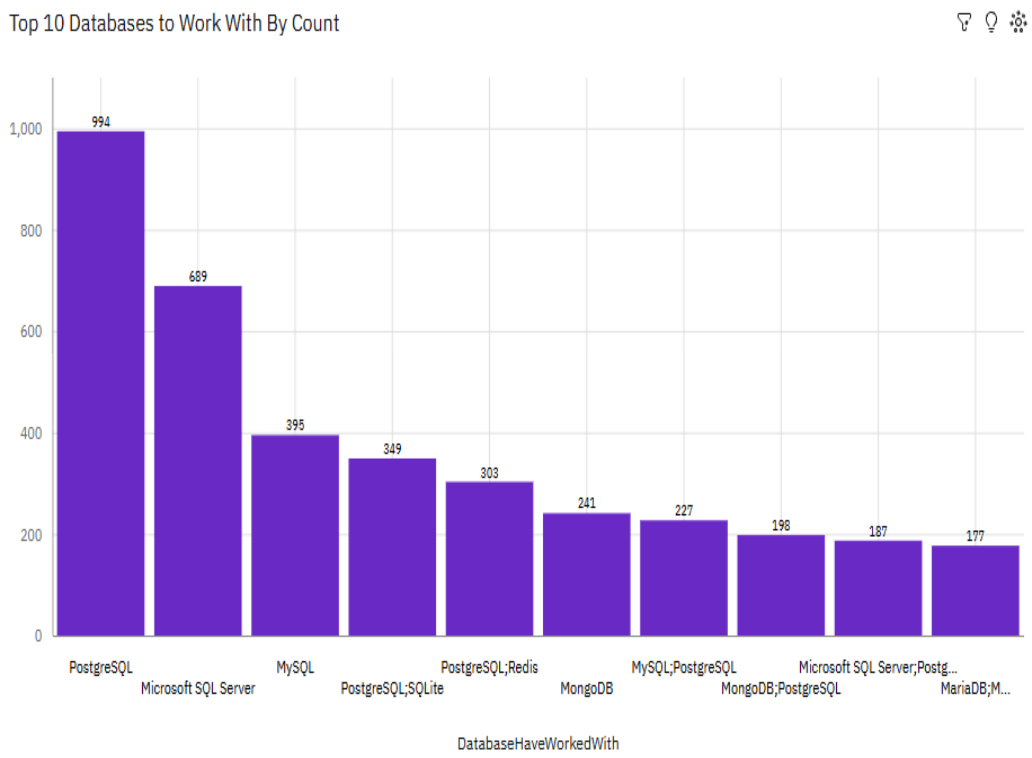

- JavaScript and TypeScript are the most common current languages.
- C# has the lowest number of current users and is amongst the highest number of languages that respondents want to work with.
- There is an alarmingly low response for python programmers. Python is one of the most common programming languages.

Implications

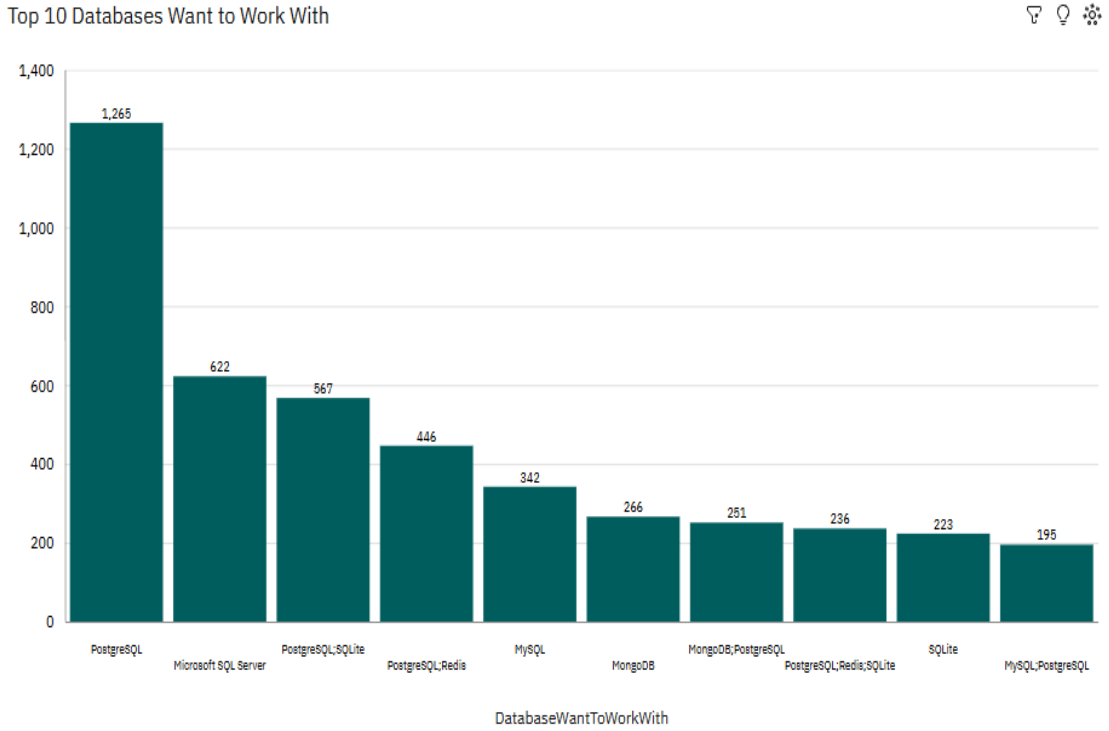

- This implies that most respondents already know these languages and that learning them is not a priority.
- Focus should be spent on making sure that learning opportunities are available to staff for C#.
- Programmers not knowing python can put the company behind the times.

DATABASE TRENDS

Current Year

Next Year

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- PostgreSQL continues to be the favorite database.
- Microsoft SQL Server is the second highest database.

Implications

- The ease and free nature of PostgreSQL make it a great database to use, even with secure data.
- With the prevalence of Microsoft in the workplace, this does make sense.

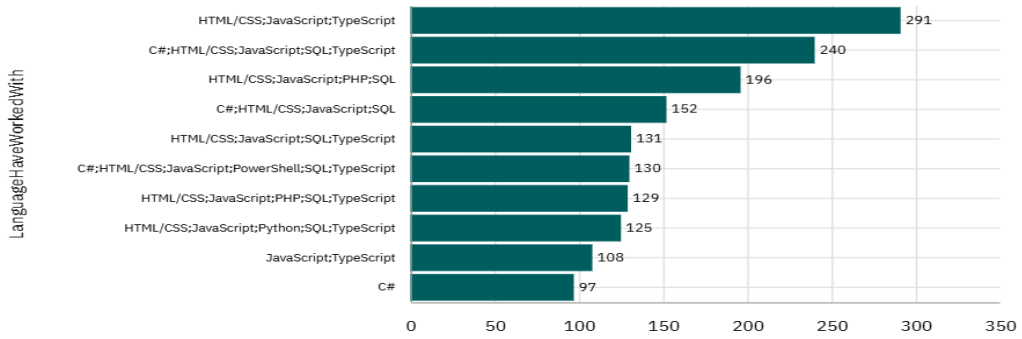

DASHBOARD TAB 1: Current Technology Usage

10/19/26, 4:42 PM

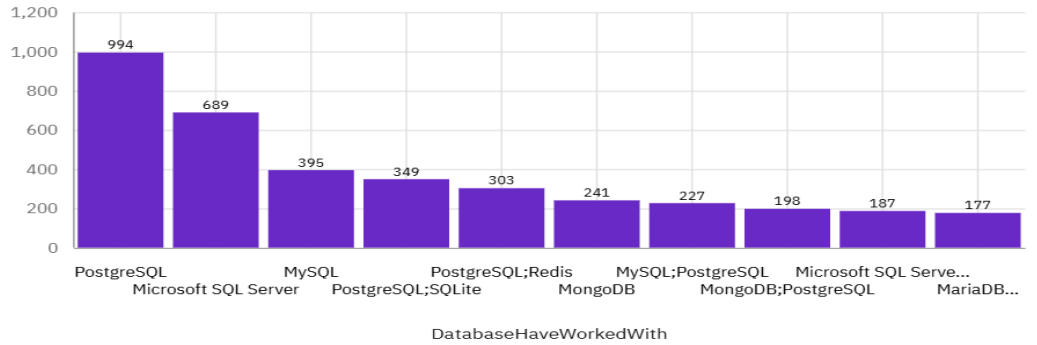

survey_data_dashboard

Current Technology Usage

Top 10 Languages to Work With By Count

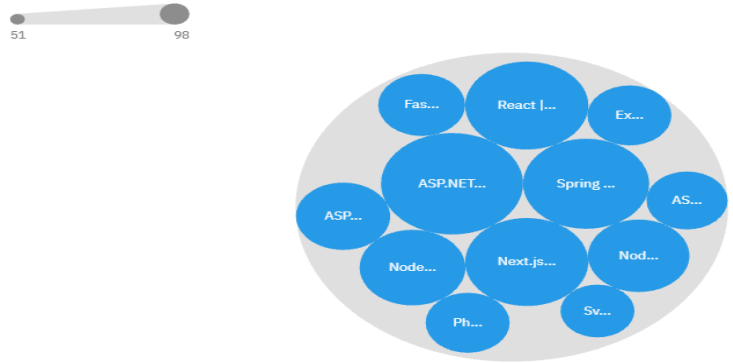

Top 10 Databases to Work With By Count

Top 10 Platforms to Work With By Count

Top 10 Webframes to Work With By Count

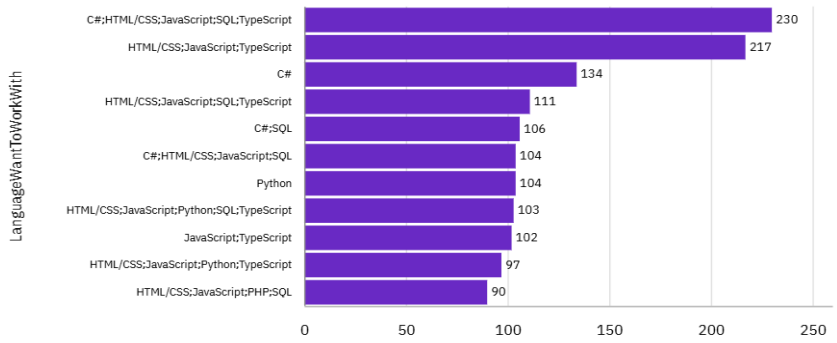

DASHBOARD TAB 2: Future Technology Trends

10/19/26, 4:42 PM

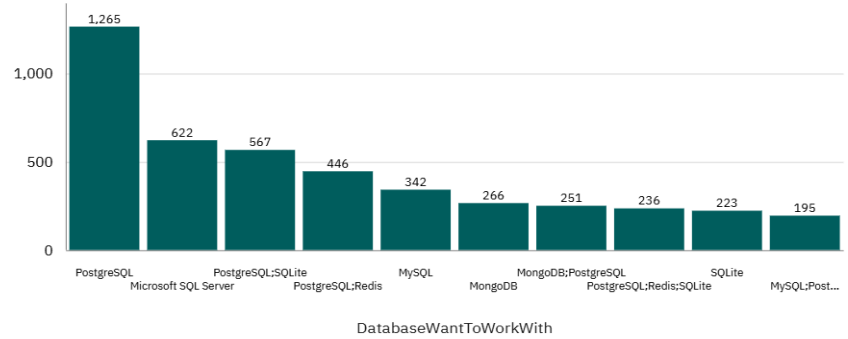

survey_data_dashboard

Future Technology Trend

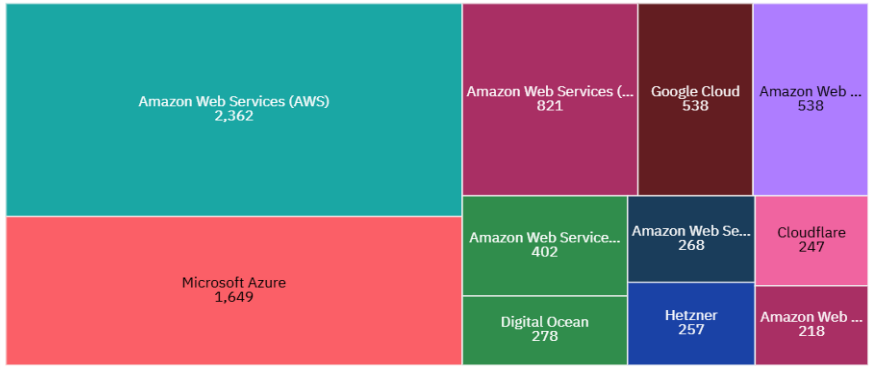

Top 10 Languages Want to Work With

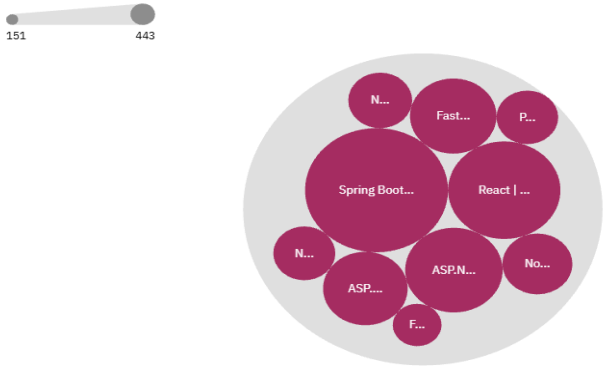

Top 10 Databases Want to Work With

Top 10 Platforms Want to Work With

Top 10 Webframes Want to Work With

DASHBOARD TAB 3: Demographics

10/19/26, 4:42 PM

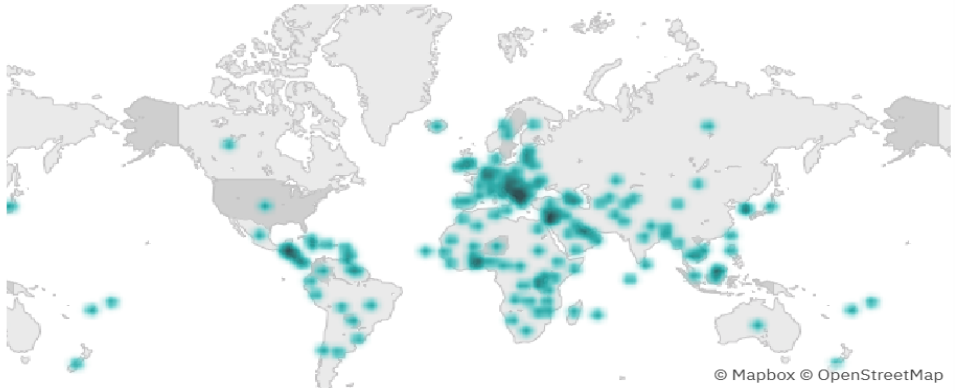

survey_data_dashboard

Demographics

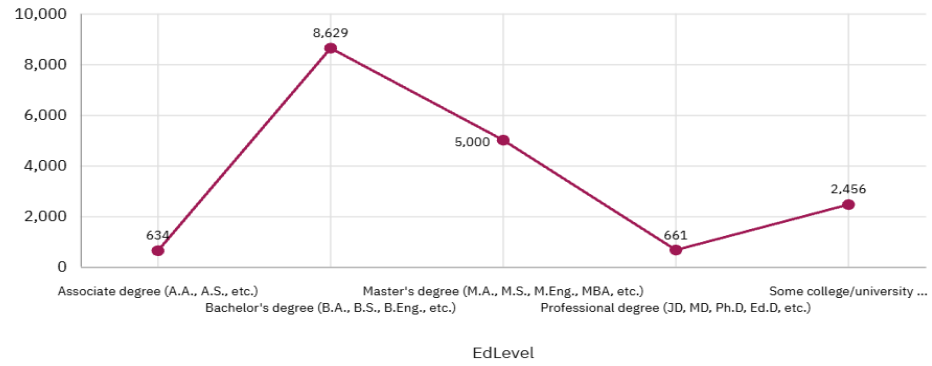

Respondents by Age

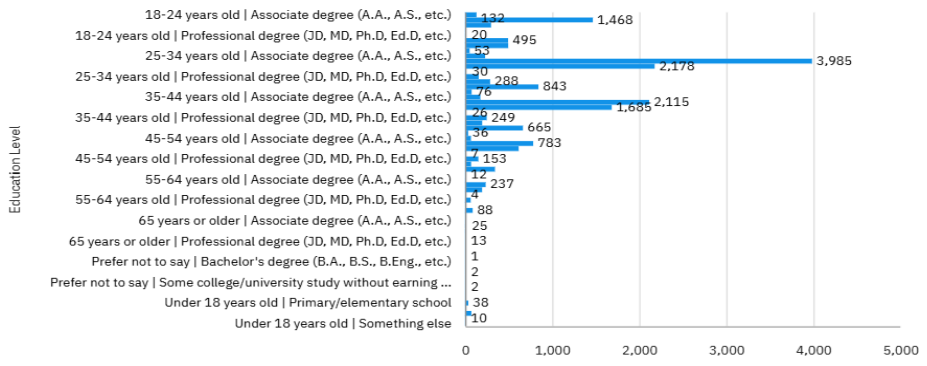

Respondents by Country

Respondents by Formal Education Level

Respondents Education Level and Age by Count

DISCUSSION

- Within the dashboards, we find that most of the respondents are between 25-34 years old and have a Bachelors Degree.

OVERALL FINDINGS & IMPLICATIONS

Findings

- AI is emerging technology
- Most respondents have some form of formal education
- Job postings show that all forms are necessary

Implications

- To keep up with emerging technology, companies will need to invest in AI
- Formal education makes someone more employable.
- Continuing education is important to further the field

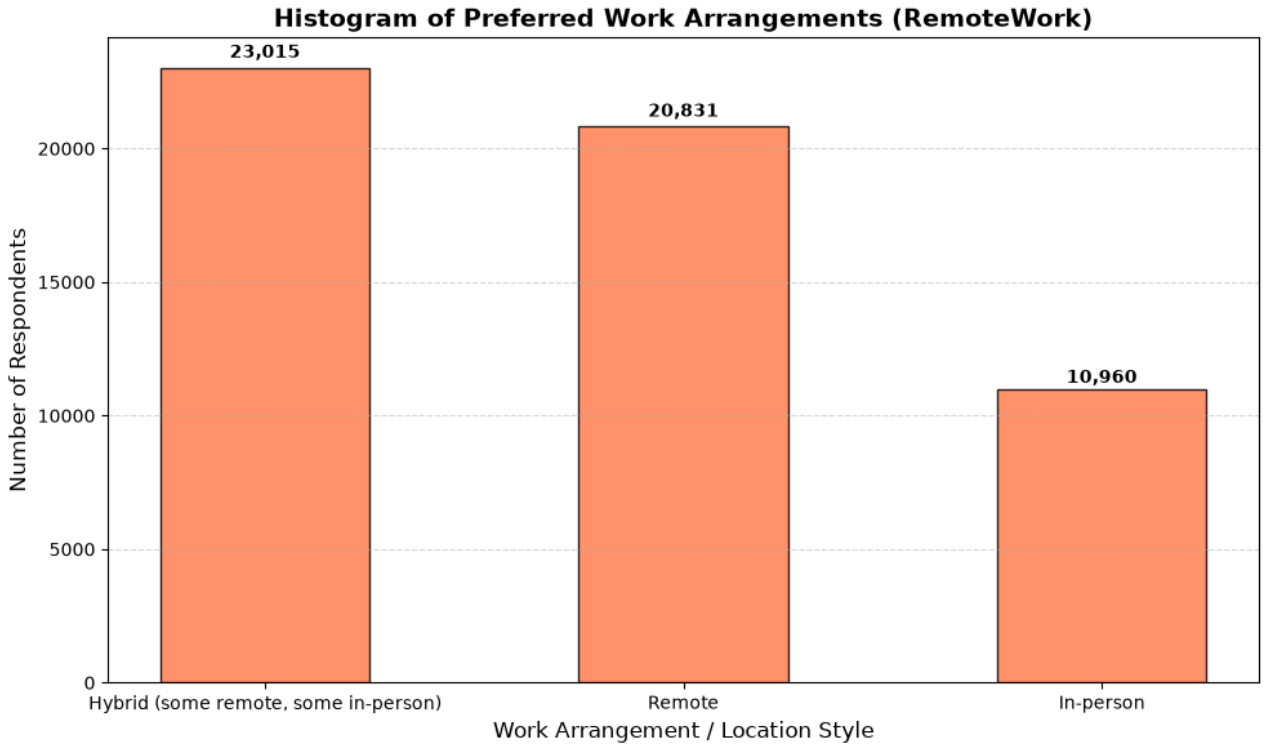

CONCLUSION

- Technology Trends
- Demographics Overviews
- Future Skills and Preferences
- Technology to Adapt
